

Please do not weaken the Indiana Telephone Privacy Laws as I enjoy spending time with my family at night. With my children being in Middle School and High School, we cannot sit and talk about our days until after 9:00 at night due to school commitments, practices, and then home work. It is hard enough to sit and talk to my children with the way the phone is constantly ringing due to my children's

friends calling all the time that I could not imagine what it would be like to have the phone ringing with all these junk calls. If this goes through, and the law is modified so that banks and credit card companies begin to call my house solicitating their services, I will withdraw my money from two of the banks that are for this, and cancel 3 of my credit cards as I see that their names are also associated with this. I will keep a close eye on this to see how you respond to this situation.
